INTRODUCTION

Welcome to the Business Services Online (BSO) Tutorial. BSO is a suite of Internet services for businesses and employers who exchange information with the Social Security Administration (SSA). You can access BSO by pointing your browser to www.socialsecurity.gov/bso/bsowelcome.htm. You can also access BSO from the Employer Reporting Instructions & Information Home page at www.socialsecurity.gov/employer.

As a registered BSO user, you may be able to perform the following services (depending on the established role[s]):

- Submit W-2 wage files to SSA;
- Create, save, print, and submit Forms W-2 online;
- Create, save, print, and submit corrections to Forms W-2 online;
- View status, error, and notice information for previously submitted W-2 data;
- View status and error information for your company's employer reports;
- Acknowledge a notice from SSA requesting you to resubmit W-2 data;
- Request a 1-time, 15-day extension to resubmit W-2 data;
- Verify employee's names and Social Security Numbers (SSNs).

Note: To use BSO, your browser must be set to 128-bit encryption. If your browser does not support 128-bit encryption, refer to the Help information within your browser for specific instructions on how to upgrade to 128-bit encryption. If your workstation is JavaScript-disabled, a warning message will be displayed on the Login and Registration pages advising you to enable it. Certain types of messages, such as the time-out warning, cannot be displayed unless JavaScript is enabled.
